

# Environmental Policy

Central Piling Limited is committed to achieving good environmental practice and operating in a sustainable manner.

The company is committed to reducing its environmental impact and continually improving environmental performance as an integral and fundamental part of the business strategy and operating methods.

We pride ourselves on understanding the environment within which we work and being a responsible contractor. We strive in our aims in our prevention of pollution and in identification and full compliance with applicable environmental legislation.

Objectives include:

- **Monitor Electricity usage consumption by 20% in the yard/office. Compare 2017 to 2020.**
- **To reduce water usage in the yard /office by 5% compared to 2018 to 2019.**
- **Measure and analyse usage of concrete on all contracts. Ongoing monitoring of concrete usage.**

Environmental objectives are defined and monitored within the company, they are compatible and strategic lead by the senior management team and are regularly reviewed to identify opportunities for continual improvement.

Certification to the internationally recognised standard for Environmental Management (ISO14001:2015) is part of the integrated management system.

We will work to continually improve the company performance and associated management system, to meet, satisfy and delight our customers.

The systems defined have my active full support. They are under continual review and improvement, however once defined are mandatory for all personnel.

Steve Hadley

Managing Director
